

Electronics Technician

ABOUT THE ROLE

As an Electronics Technician working at Qinu, you will work in the field of automation and information technology. Assembly of cables, wiring of control cabinets, soldering of electronic assemblies and devices are just some of the tasks you can contribute to our team. With the help of our engineers and scientists, you will assist in the development, fabrication, and maintenance of our cryogenic systems. Besides a sustainable job opportunity, we would provide you with advanced knowledge of cryogenic physics and engineering. In addition, you can become a part of Qinu's core team – with broad career development opportunity and long-term job prospect.

QUALIFICATIONS & SKILLS

- Successfully completed training as an electronics technician, mechatronic technician, or comparable qualified job with electronical focus
- Basic electronic, electrical and mechanical knowledge as well as manual dexterity
- Computer literacy and good written and spoken German or English
- Good work ethics and a motivated attitude
- Ability to work independently and as part of a team
