

Sales Application Engineer

ABOUT THE ROLE

As a Sales Application Engineer at Qinu, you will form the interface between customer, manufacturer and sales. As a member of our team, you will support us in product development, application design, customer relations, and marketing. Besides a sustainable job opportunity, we would provide you with advanced knowledge of cryogenic physics and engineering. In addition, you can become a part of Qinu's core team – with broad career development opportunity and long-term job prospect.

QUALIFICATIONS & SKILLS

- Successfully completed B.Sc. or B.A. degree or higher in engineering, business administration, or equivalent professional experience
- High level of computer literacy, outstanding communicational skills
- Excellent written and spoken German and English
- High degree of self-motivation and good work ethics
- Willingness to travel for customer visits and fair attendance
- Ability to work independently and as part of a team

FURTHER INFORMATION

- This is a full-time or half-time position with at least 20 hours per week.
- Flexible working hours and home office (hybrid work) are possible.
- We offer an attractive salary with different capital-forming and non-cash benefits.
- First round of interviews will be conducted via video conference.
- Please apply by submitting a CV and a covering letter (including the earliest possible start date) via email to hr@qinu.de.
- We are also happy to answer any questions you may have by email. Don't hesitate to contact us!
