

Unsolicited Application for Students

If you are looking for a part-time or fulltime student position in the fields of electronics, mechanical or software engineering, then look no further. Working at Qinu, you will join our team of dedicated students and experienced scientists and engineers. With the help of this team, you will gather elaborate knowledge and experience in the field of automation and information technology, plant engineering or embedded programming. As a young and open-minded startup, we offer flexible work times, a broad career development opportunity and long-term job prospect after finishing your university studies.

QUALIFICATIONS & SKILLS

- Ongoing university studies either in a technical, electronics or informatics field
- Mechanical handicraft skills and a basic knowledge of CAD programs or programming languages are beneficial.
- Computer literacy and good written and spoken German or English
- High degree of self-motivation and good work ethics
- Ability to work independently and as part of a team

FURTHER INFORMATION

- This is a part-time position with maximum 20 hours per week.
- Flexible working hours and home office (hybrid work) are possible.
- First round of interviews will be conducted via video conference.
- Please apply by submitting a CV and a covering letter (including the earliest possible start date) via email to hr@qinu.de.
- We are also happy to answer any questions you may have by email. Don't hesitate to contact us!
